

Fee-charging Standards for Toxic and Concerned Chemical Substances Control Act

The original 6 articles were promulgated by Order of the Environmental Protection Administration, Executive Yuan, on February 5, 1997.

The full 6 articles were amended and promulgated by Order of the Environmental Protection Administration, Executive Yuan, on June 24, 1998.

The full 6 articles were amended and promulgated by Order of the Environmental Protection Administration, Executive Yuan, on August 22, 2007; the name was also revised from “Toxic Chemical Substances Handling Permit Application Fee Standards” to “Toxic Chemical Substances Handling Application Fee Standards”.

The full 9 articles were amended and promulgated by Order of the Environmental Protection Administration, Executive Yuan, on December 8, 2014; the name was also revised from “Toxic Chemical Substances Handling Application Fee Standards” to “Toxic Chemical Substances Handling Application and Chemical Substances Registration Fee Standards”.

The full 8 articles were amended and promulgated by Order of the Environmental Protection Administration, Executive Yuan, on April 7, 2021; the name was also revised from “Toxic Chemical Substances Handling Application and Chemical Substances Registration Fee Standards” to “Fee-charging Standards for Toxic and Concerned Chemical Substances Control Act”.

Article 1 These Standards are determined pursuant to Article 46 of the Toxic and Concerned Chemical Substances Control Act (hereinafter referred to as “this Act”) and to Article 10, paragraph 1 of the Charges and Fees Act.

Article 2 Fees designated in these Standards shall include review fees and certificate fees, and specifically the following items:

- I. Permits: for the manufacture, import, and sale of Class 1, Class 2, and Class 3 toxic chemical substances
- II. Registration documents: for the use and storage of Class 1, Class 2, and Class 3 toxic chemical substances
- III. Approval documents:
 - A. For the manufacture, import, sale, use, and storage of Class 1, Class 2, and Class 3 toxic chemical substances, when the total quantity handled is less than the graded handling quantity officially announced pursuant to Article 11, paragraph 2, of this Act
 - B. For the manufacture, import, export, sale, use, and storage of Class 4 toxic chemical substances and concerned chemical substances
- IV. Application for removal of restrictions or prohibitions on Class 1, Class 2, and Class 3 toxic chemical substances in accordance with Article 8, paragraph 3, of this Act
- V. Application for prior screening and examination for Polymer of Low Concern (PLC) of new chemical substances
- VI. Application for new chemical substances or existing chemical

substances registration, including:

- A. New chemical substances standard registration, simplified registration, small quantity registration, and the extension thereof
 - B. Existing chemical substances phase 1 registration and standard registration
- VII. Application for confidential business information protection and extension of confidentiality period for new chemical substances registration or existing chemical substances registration
- VIII. Application for accreditation, change of, or alteration of professional response and consulting agencies (organizations) involved with handling toxic and concerned chemical substances environmental incidents.

Article 3 Competent authorities at all levels shall collect the following review fees in accordance with Appendix 1 for the issuance, approval, extension, or change of all types of toxic and concerned chemical substances handling permits, registration documents, approval documents, and applications for removal of restrictions or prohibitions on Class 1, Class 2, and Class 3 toxic chemical substances, pursuant to this Act.

When competent authorities at all levels accept the consolidated application of the permits, registration documents, and approval documents as described in the previous paragraph, the sole review fee shall be that with the highest fee.

When competent authorities at all levels accept an application for the extension or change of permits, registration documents, or approval documents as prescribed in Paragraph 1, while simultaneously changing the content of other items, the sole review fee shall be that for the extension or change item with the highest fee.

Article 4 Competent authorities at all levels shall collect the review fees specified in Appendix 2 for accepting and reviewing the application of a phase 1 or standard registration of existing chemical substances; a standard, simplified, or small quantity registration for new chemical substances; a prior verification of Polymer of Low Concern (PLC) of new chemical substances; or a confidential business information protection or confidentiality period extension for new chemical substances or existing chemical substances.

Article 5 Competent authorities at all levels shall collect the review fees specified in Appendix 3 for accepting and reviewing the application of the accreditation, change, or alteration of professional response and consulting agencies (organizations) for toxic and concerned chemical substances environmental incidents, in accordance with this Act.

Article 6 Competent authorities at all levels shall collect the certificate fees for the issuance, approval, extension, change, or reissuance of all types of toxic and

concerned chemical substances handling permits, registration documents, and approval documents; and for the issuance and change of the accreditation certificate of professional response and consulting agencies (organizations) for toxic and concerned chemical substances environmental incidents, in accordance with Appendix 4.

Article 7 Competent authorities at all levels shall not collect a review fee or a certificate fee when, due to service needs, it must notify holders to renew certificates referred to in the foregoing article.

Article 8 These Standards shall take effect on the date of promulgation.

Appendix 1

Unit: New Taiwan Dollar (NT\$)

Application item		Permit	Registration document	Approval document	Application for removal of restriction or prohibition on Class 1, Class 2, and Class 3 toxic chemical substances
New application		3,600 per substance	2,400 per substance	1,200 per substance	24,000 per substance
Extension		1,800	1,200	600	-
Change of document(s)	Add storage sites	1,000	-	400	-
	Add constituents of the original substances	1,000 per substance	700 per substance	400 per substance	-
	Add other substances	3,600 per substance	2,400 per substance	1,200 per substance	-
	Other contents, but the following contents will not be charged: 1. Change to the basic information of the handler or handling sites 2. Change to the whole plant configuration or the interior layout 3. Suspension of constituents of substances	1,000	700	400	-

Note: In case of any of the following changes of handling sites, the handler must reapply for the permits, registration documents or approval documents, which will be charged as a new application:

1. The manufacturing, usage or storage site is changed
2. The location of import or sales site is moved outside the jurisdiction of the competent authority

Appendix 2

Unit: New Taiwan Dollar (NT\$)

Application item		Existing chemical substances	New chemical substances
Phase 1 registration		100	-
Standard registration	General cases	50,000	50,000
	Application of a designated item with specific documents	37,000	37,000
Simplified registration		-	20,000
Small quantity registration		-	2,000
Extension	Standard registration	-	2,000
	Simplified registration	-	1,000
	Small quantity registration	-	1,000
Prior verification of Polymer of Low Concern (PLC)		-	1,000
Confidential business information protection		12,500 per information item	12,500 per information item
Extension of confidentiality period		10,000 per information item	10,000 per information item

Notes:

1. With respect to those who apply for the standard registration of a designated item with specific documents, the designated item refers to skin corrosion/irritation or eye irritation under the section of toxicological information, whereas the specific documents refer to *in vitro* tests, structure-activity relationship analysis, or read-across data.
2. The registrants who are academic institutes or small and medium enterprises (SMEs) as prescribed in the Act for Development of Small and Medium Enterprises will be charged only with 75% of the review fee when applying for a standard registration of existing chemical substances; or a standard, simplified, or small quantity registration of new chemical substances.

Appendix 3

Unit: New Taiwan Dollar (NT\$)

Review item				Expenses
Document review fee	Application	Response agencies (organizations)		30,000
		Consulting agencies (organizations)		20,000
	Alteration or change	Changes only in the name of the agency (organization), the name of the person responsible, or other matters designated by the competent authority		5,000
		Other alterations or changes		10,000
Site survey review fee	Application	36,000 for the first site (Any additional site will be charged 20,000 per site.)		
	Alteration or change	24,000 for the first site (Any additional site will be charged 12,000 per site.)		
Field exercise review fee	Application	Response agencies (organizations)	Less than 6 service items	100,000
			6 service items and above	Any additional item will be charged 20,000 per item, but in excess of 6 additional items, the charge will be only the total for 6 items.
		Consulting agencies (organizations)	Less than 6 service items	70,000
			6 service items and above	Any additional item will be charged with 10,000 per item, but in excess of 6 additional items, the charge will be only the total for 6 items.
	Alteration or change	Response agencies (organizations)	Changes to non-service items	30,000
			Changes to service items	Any item will be charged with 10,000 per item, but in excess of 6

				additional items, the charge will be only the total for 6 items.
		Consulting agencies (organizations)	Changes to non-service items	20,000
			Changes to service items	Any item will be charged with 5,000 per item, but in excess of 6 additional items, the charge will be only the total for 6 items.

Note: With respect to the samples, venue (site) and equipment required for carrying out the field exercise review, the applicant shall refer to the competent authority's requirements for preparations.

Appendix 4

Unit: New Taiwan Dollar (NT\$)

Certificate item	Expenses
Permit	1,000
Registration document	500
Approval document	300
Accreditation certificate	1,000
