

表九之一 機動車輛排放空氣污染物及噪音檢驗測定機構檢測數據登錄表

檢驗室名稱：

申請測定類別：機器腳踏車排放空氣污染物測定類

車輛廠牌/型式/名稱：

| 序<br>號 | 測定項目<br>測定日期 | 排氣行車型態測定值 |           |        |           | 排氣情轉狀態測定值 |           |    |           | 油箱、化油器蒸發氣測定(Trap 法) |           |
|--------|--------------|-----------|-----------|--------|-----------|-----------|-----------|----|-----------|---------------------|-----------|
|        |              | CO        | 差異<br>百分比 | HC+NOx | 差異<br>百分比 | CO        | 差異<br>百分比 | HC | 差異<br>百分比 | g/test              | 差異<br>百分比 |
| 1      |              |           |           |        |           |           |           |    |           |                     |           |
| 2      |              |           |           |        |           |           |           |    |           |                     |           |
| 3      |              |           |           |        |           |           |           |    |           |                     |           |
| 4      |              |           |           |        |           |           |           |    |           |                     |           |
| 5      |              |           |           |        |           |           |           |    |           |                     |           |
| 6      |              |           |           |        |           |           |           |    |           |                     |           |
| 7      |              |           |           |        |           |           |           |    |           |                     |           |
| 8      |              |           |           |        |           |           |           |    |           |                     |           |
| 9      |              |           |           |        |           |           |           |    |           |                     |           |
| 10     |              |           |           |        |           |           |           |    |           |                     |           |
| 11     |              |           |           |        |           |           |           |    |           |                     |           |
| 12     |              |           |           |        |           |           |           |    |           |                     |           |
| 13     |              |           |           |        |           |           |           |    |           |                     |           |
| 14     |              |           |           |        |           |           |           |    |           |                     |           |
| 15     |              |           |           |        |           |           |           |    |           |                     |           |
| 平 均 值  |              |           | ---       |        | ---       |           | ---       |    | ---       |                     | ---       |
| 標 準 差  |              |           | ---       |        | ---       |           | ---       |    | ---       |                     | ---       |

註：差異百分比=(測定值-平均值)/平均值×100%
